

# HELP MAKE A DIFFERENCE.

**Haoua Inoua**  
African-Caribbean Support Worker  
AIDS Committee of Ottawa

We are asking for your help today to raise funds for the production of two broadcast-quality promotional videos highlighting the transformational change individuals experience through my program. We want to show the positive side of the lives of individuals living with HIV—beautiful, accomplished and normal lives. It is our hope that these videos will help raise HIV/AIDS awareness in the capital region, and help promote our program to continuously provide better services and resources to our participants.

The first video is ***A New Day***, a 60-second Public Service Announcement (PSA) focusing on the growth and change one experiences as a part of the African and Caribbean Support Program at the AIDS Committee of Ottawa.

The second video is ***A Family Approach***, a 3.5-minute promotional documentary following the real-life transformation of individuals of African or Caribbean descent living in Ottawa with HIV or AIDS.

Please consider donating today!
